SYARIKAT Takaful Malaysia Keluarga Bhd's net profit fell 12% to RM72.6 million in the third quarter ended Sept 30, 2021 (3Q21), compared to RM82.6 million posted in 3Q20. Revenue for the quarter under review declined 9% to RM684.32 million versus RM753.47 million a year ago. The revenue decrease was mainly attributable to lower sales generated from the Family Takaful business, the company said in a filing to Bursa Malaysia yesterday. - Bernama
