KUALA LUMPUR: Syarikat Takaful Malaysia Keluarga Bhd (Takaful Malaysia) through its general takaful arm, Syarikat Takaful Malaysia Am Bhd, has introduced its latest affordable online protection plan, Takaful *myClick* MozzCare, that provides coverage against dengue and Zika infection as well as a complimentary extension of coverage for the 2019 novel Coronavirus (Covid-19).

Group chief executive officer Datuk Seri Mohamed Hassan Kamil said the extension of coverage is offered in light of the increasing number of people who have been infected with Covid-19 apart from the ever-present dengue cases in the country.

“We are responding to an immediate need of consumers by providing an extension of coverage against Covid-19 on top of the benefits offered via our newly introduced Takaful *myClick* MozzCare plan,” he said in a statement today.

Mohamed Hassan said the plan provides a lump sum cash pay-out of up to RM4,000 if the person covered is diagnosed with dengue or Zika and a lump sum cash pay-out of up to RM2,000 if diagnosed with Covid-19.

He said the plan is offered to individuals aged 18 and above from as low as 11 sen a day or RM40 a year and is only available online via the Click for Cover sales portal.

“We remain focused on providing a wider portfolio of innovative product mix that caters to the needs of consumers who are constantly looking for online protection solutions.

“For this product, we also provide claims pay-out within one working day, and our customers can choose from any of the three exclusive packages offered, namely Bronze, Silver and Gold, which provide a different sum covered at a very affordable price to meet their protection needs” he added. – Bernama
